This is one-half the present duration of such affairs. The second decree prescribes that women shall no longer remain in the drawing-room alone, leaving the men to smoke in the dining-room in accordance with the English custom, but that all shall remain in the drawing-room, where German custom allows cigarettes to accompany the coffee.

# CLARK LEADS REVOLT AGAINST REPEAL POLICY.

Underwood Refuses to Stultify Himself at Behest of White House.

Tremendous Insurgent Movement Develops in Democratic Ranks on the Eve of the Vote on a Programme the President Insists Is Absolutely Necessary to Save Him—Motion to Adopt "Gag Rule" Is Postponed.

(BY A. P. NIGHT WIRE.)  
WASHINGTON, March 26.—The greatest legislative battle yet undertaken by President Wilson's administration was begun today with the presentation of a special rule in the House to limit debate and prohibit amendment on the administration proposal to repeal the provision of the Panama Canal act allowing free passage to American ships. For two hours the rule was alternately defended and attacked in heated debate in the House. When adjournment came with an hour of debate on the rule left for tomorrow, Speaker Champ Clark, who had not yet announced his position on the repeal policy, issued a statement vigorously opposing the rule.

CLARK'S POSITION.  
"Surely there is nothing sacred about this repeal bill, and there is no reason for this mad rush," Speaker Clark said in his statement. "I will not be a party to ramming such a rule down the throats of members."

Impressed with the importance of the measure which President Wilson has characterized as necessary to the conduct of his administration's foreign policy, an extraordinary attendance of members was on the floor when the rule was presented. Galleries and floor were crowded. Throngs of spectators occupied the stairways and overflowed into the corridors. The speakers came when the House met at 11 o'clock this morning. The debate lasted for four hours and was a running battle. The legislative body finally was cleared and at 4 o'clock Representative Henry, chairman of the Rules Committee, presented the rule limiting debate on the repeal bill to twenty-four hours and precluding amendment except for a single motion to recommit. Brief arguments brought the debate to a close.

HENRY OPENS DEBATE.  
Representative Henry to a house slightly attentive explained the rule, and launched into a defense of the repeal bill. Then followed an argument in which the rule received little attention, as compared with the merits of the measure, and the President's foreign policy, the right of the American government to exercise control of the canal it has built and the economic advisability of free tolls for American ships were dragged back and forth into the discussion.

Henry said that the free tolls plank of the Baltimore platform did not represent Democratic sentiment and pointed out that when the Panama Canal act was passed only twenty-two Democrats in the House voted for free tolls, while ninety-four voted against the plank. "I propose," he said, "to aid in the correction of a blunder that has been committed by the American Congress. This free tolls provision violates a treaty and contract we have with England and other nations. The President of the United States has come to the House and has summoned us to his aid in this great crisis and I feel that we should stand by him."

Representative Campbell of Kansas, Republican, opened the argument for the repeal of the tolls. He said that the repeal of the tolls was a matter of life and death for the American people. He said that the tolls were a burden on the American people and that the repeal of the tolls was a matter of life and death for the American people. BRYAN WAITS FOR THE CHANGE.

NEWSBOY HAS TO DIG DEEP TO FIND PENNY.  
Peaceful Secretary Purchases New York Paper in Washington, but Object to the Prevailing Local Price and Makes the Astonishing Youth Shell Out His Rebate.

(BY DIRECT WIRE-EXCLUSIVE DISPATCH.)  
WASHINGTON BUREAU OF THE TIMES, March 26.—Secretary Bryan stepped a newsboy today near the Treasury and purchased a New York paper. He handed the boy a nickel, and to the newsie's surprise, waited for his change.

The prevailing price of New York papers in Washington is 3 cents, so when the boy saw that he had to give back change to the Secretary of State, he handed out two pennies. Secretary Bryan, looking at the sale price on the paper, said: "This is marked 2 cents, son; come across with that other penny."

The newsie was so astonished he didn't know what to do; he didn't even stop to argue his case; he simply shelled out another penny, the profit on his paper.

As the Secretary walked briskly up the street the boy was heard to remark: "Gee, but these is hard times. When Secretaries Hay, Root and Knox were running the State Department we always got at least a quarter for our papers. They never bought only one, and they never asked change."

# DELYING ON BRYAN.

Hindu Quotes Him in Defense.

Declares Nebraskan Has Said Worse Things of John Bull in India.

Dyal to Resist Deportation With Speeches of State Secretary.

International Complications Predicted in Arrest of the Educator.

(BY DIRECT WIRE-EXCLUSIVE DISPATCH.)  
SAN FRANCISCO BUREAU OF THE TIMES, March 26.—Har Dyal, Hindu savant, arrested Wednesday night by immigration officials, was cloistered many hours today with Immigration Inspector Frank Ainsworth at Angel Island and given an opportunity of showing cause why he should not be deported from the United States as an undesirable alien.

At the conclusion of the hearing Dyal was allowed freedom on bonds of \$1000, supplied by friends, although, following the formality of arrest on Wednesday night, he had been released on his own recognizance.

The case of Har Dyal, an ardent advocate of open rebellion against what he terms "the tyranny of British rule in India," and former professor of his native philosophy at Leland Stanford, Jr. University, is in the eyes of the government, of international importance, involving principles of the greatest weight.

Dyal was confronted with excerpts from several of his own addresses on the Indian situation and the revolutionary movement in Russia, and with clippings attributed to him from a London paper printed in this city, by Inspector Ainsworth, in which he did not dispute their authenticity. Dyal contended that he was within his right in his methods of inciting open revolt of Hindus against British rule in India.

HAR DYAL'S EXPLANATION.  
"My mission to Americans is that of an educator," he said, "and I have no desire to inflame the minds of your countrymen against their government. I am teaching a new philosophy, a new system of philosophy and working in the interests of labor during such time as I can spare from my principal work, that of liberating Hindus from tyranny."

An important angle of the hearing, and one which leads to international significance, was revealed by a series of questions as to the authorship of a letter written upon paper bearing the monogram of Leland Stanford, Jr. University, recently introduced as evidence at Delhi, India, in which several high-caste Hindus charged with sedition.

While there is no charge or direct evidence that Har Dyal wrote or knew of the writing of this letter, government officials believe that through his great intimacy with all Hindus in America and his influence over them he is a dangerous man to be allowed to remain in this country. "If anything was gleaned during yesterday's hearing which throws light upon this end of the tangle was the fact, but it was intimated that important evidence might be secured before the case closed."

# CALIFORNIA EX-CAPITALIST MAY FACE GRAND JURY.

(BY DIRECT WIRE-EXCLUSIVE DISPATCH.)  
PORTLAND, March 26.—Walter Greer Campbell, former millionaire speculator in Mexican lands, resident of San Francisco, arrested here Tuesday, is in the custody of a deputy sheriff, trying to negotiate a loan on Mexican securities by which he hopes to again get started on the road to make another fortune. With the deputy, Campbell is at the Imperial Hotel. He expects word that money he sent yesterday to San Francisco will make him a free man. All day the telephone wires were kept busy between Campbell's attorneys and the California officials, in an effort to have the charge against him withdrawn. This charge is that of obtaining \$150 on a draft that failed to pass the bank.

In regard to the San Francisco report that a woman appeared at the District Attorney's office there, complaining of a marriage to Campbell in 1912, which she said was not legal, Campbell's attorneys knew nothing. The grand jury in San Francisco, it is said, will investigate the case as reported.

# DEMOCRATS ARE WORRIED OVER THE TARIFF LEAK.

(BY A. P. NIGHT WIRE.)  
WASHINGTON, March 26.—Administration officials are determined that the validity of the 5 per cent. clause of the present tariff law, granting a 5 per cent. discount on goods imported from American bottoms, shall be passed upon by the Supreme Court and not finally settled judicially by the Court of Customs Appeals, now the final arbiter in customs cases.

Within the next few weeks, efforts will be made in Congress to enact legislation which will permit appeals to the Supreme Court from the Customs Court in important cases.

### SECRET LIFE MADE PUBLIC.

LOUISVILLE IRONMASTER TOOK NAME OF "WIFE."

Suit Against Estate of Ewald Dismissed. He Installed Woman in a House and Then Purchased Costly Residence Next Door, Which He Kept Vacant.

(BY A. P. NIGHT WIRE.)

LOUISVILLE (Ky.) March 26.—Minute details of the life of Louis Philip Ewald, late ironmaster of St. Louis and Louisville, to which he devoted painstaking efforts and a small fortune to keep secret, were revealed today, almost five years after his death, during trial of the suit brought by Ellen J. Golden, or Ewald, by which she seeks to establish dower rights in Ewald's estate. She alleges she was his common law wife. Ewald's estate was estimated to be worth about \$4,000,000. He willed \$5,000 each to nine brothers and sisters and the remainder to Ellen Golden's three children, whom Ewald married. The woman is suing for judgment for half the personal property and a widow's interest in a realty aggregating approximately \$600,000.

The plaintiff testified today that the legal common law marriage between herself and Ewald took place in Louisville in March, 1890. Prior to leaving St. Louis to take up her residence in an elaborate home bought for her by Ewald, she lived in Williamsport, Pa., Pittsburgh, Washington, Chicago and Denver. The plaintiff admitted she never was generally known as Mrs. Ewald. Although Ewald operated a large iron foundry here for a score of years and accumulated several million dollars, he virtually was unknown in this city. He shunned ordinary notice, made only such acquaintances as his business necessitated, and took no part in the city's affairs. He spent much of his time

Louisville in the '90s, testimony disclosed Ewald took her name and was known in the neighborhood as "John P. Golden." For the purpose of seduction, it was claimed, Ewald purchased a large and costly residence next to the one in which he installed Ellen Golden, and kept it vacant. The trial of the woman's suit for part of Ewald's fortune is expected to continue for a week.

RAILROAD RETRENCHES.

The "Penny" Announces Reduction of Number of Employees Will Be Continued Over Entire System.

(BY A. P. DAY WIRE.)

PHILADELPHIA, March 26.—It was stated at the offices of the Pennsylvania Railroad Company today that the policy of retrenchment and economy put into effect in the closing months of last year will be continued until the number of employees on its lines east of Pittsburgh and Erie, Pa.,

had been reduced from 142,000 to 117,000. The company today confirmed reports that the number of employees had already been lowered in the last few months to 135,000.

It was explained that traffic in October, 1913, when 142,000 men were employed, was about the same as in February, 1914, when 117,000 were on the pay roll, and that the company intended to reduce the number of employees to the 1910 basis.

fact that Premier Asquith was not in a position tonight to make his promised statement in Parliament and it was consequently postponed until tomorrow.

The air is full of rumors, among the most credible being the report that Col. Seely is, after all, to quit the War Office by an exchange of portfolios with Louis Harcourt, Secretary for the Colonies.

The only new facts in the situation today were to be found in the resignation of Field Marshal Sir John French of the Imperial General Staff and John Spencer Ewart, Adjutant-General, from the Council. The rumor persists that other members of the Council have resigned.

Negotiations and conferences between Buckingham Palace, the War Office and Downing street were carried on throughout the day, and it was known that the strongest efforts were being made to induce Field Marshal French and Gen. Ewart to reconsider their action.

At midnight Field Marshal French authorized the statement that his resignation had neither been accepted nor withdrawn.

According to the best information, the conference at the War Office yesterday afternoon of all the principal commanding generals of the army was called to enable Gen. French and Ewart to explain their resignations.

Then followed interviews with the Ministers and an audience with the King with a view to inducing them to reconsider their action.

It is generally believed, however, that it will be found that Col. Seely has again resigned and that his resignation has been accepted.

## COUNT OKUMA MAY HEAD NEW JAPANESE CABINET.

[BY PACIFIC CABLE.]  
TOKIO, March 26.—Strong efforts are being made to induce the Emperor to designate Count Shigenobu Okuma as head of the new Japanese Cabinet. It has been urged on His Majesty that Count Okuma, formerly Foreign Minister, is a powerful and popular statesman. Although he is a leader of the Progressive party, it is pointed out that he is capable of forming a strong coalition Cabinet calculated to please the Japanese public and to create good feeling throughout the empire in the period of the approaching coronation. The Conservatives have given indications that they will oppose the choice of Count Okuma, and the elder statesmen today held a long conference on the subject on the floor of the House of Representatives, whose sittings were suspended a few days ago, resubmitted today and immediately passed a resolution to adjourn until December.

NEW YORK, March 26.—Two suits aggregating \$680,590 were filed in the Federal court today against the J. S. Johnson Company, dealers in pineapple juice, on behalf of the government. The actions were instituted under the revenue laws and allege undervaluation of juice imported from the island of Hawaii, where the company has a plantation and canning plant.

## Muse Descends on Statesmen.

Gov. Elias M. Ammons Gov. A. O. Eberhart

Two of a kind,  
The Governor of Colorado and the Governor of Minnesota are running neck and neck for the Nobel prize for poetry, as is Bryan for the Nobel prize for peace. Their effusions indicate the muses are now camping in a section of the country which not many years ago was dedicated to the "wild and woolly."

## A PAIR OF GOVERNORS "DROP INTO POETRY."

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]  
DENVER, March 26.—Elias M. Ammons, Governor of Colorado, is a poet, and he even admits it. And now his song writing is being used as thunder by his political opponents.

Gov. Eberhart wrote "Tis Only You," and named his wife as the recipient of the message. Six verses it was, and he declares he wrote it while lounging in a dentist's chair. Anyhow, it was sung at a concert, and is being published. The song runs:

When in the twilight of a perfect day,  
My longing thoughts will wander far away,  
To seek the beautiful and good and true,  
Not wealth nor power would I see, but only you.

After hearing the song at the McLeod county Democratic convention yesterday the delegates passed several resolutions, among them being one praising the present national administration and John Lind, and another condemning the present State authorities. "The latter says, 'We condemn the silly, blatant, venal and maudlin administration of the State by Gov. Eberhart, who is a junketing, tangoing, turkey-trotting, ballad-singing, song-writing antic and general lack of interest in and grasp of State affairs have caused the contempt of all thinking men and made the State administration the laughing stock of the nation.'

The spirit that builded an empire,  
That thrills our hearts with courage  
And patriotic zeal;  
To accomplish the noblest, our best—  
'Tis the spirit of Colorado—  
The spirit of the West.

The State spruce bedecked in its silver;  
Our flowers of lavender hue;  
And birds thrilling sonnets anew;  
Appeal for a union of effort  
To strive at the State's best, the best,  
For the spirit of Colorado.

The spirit that builded an empire,  
That thrills our hearts with courage  
And patriotic zeal;  
To accomplish the noblest, our best—  
'Tis the spirit of Colorado—  
The spirit of the West.

## Mistral, Poet of Provence, at His Desk.

"Mistral chez lui."

From a photograph of the departed poet recently placed in Los Angeles and on which Mistral had written the quoted French phrase—Mistral at home.

## MISTRAL, GREATEST POET OF SUN-KISSED PROVENCE.

BY HECTOR ALLIOT.

FREDERIC MISTRAL, philosopher-poet of Provence, has just passed away, full of years and honors far beyond the hopes of most mortals.

Manly, good-hearted and full of love for everything noble and beautiful, his simple life as a man of letters illuminates two centuries.

The value of his work as a literary man is unique. Using for the vehicle of his genius the patois of his native province, a language today obsolete and evanescent, three of his most important works have been translated into sixteen different tongues and have become classics in many lands.

His memory as the greatest Provencal poet will not only live in his own country but will survive everywhere for those who worship at the shrine of beautiful and inspiring poetry.

His immortality rests assured on "Mireio," his famous epic poem. It is the story of unhappy love of a humble "Arlésienne," a child of the soil. But that poetic drama of pure and exalted sentiment is not new in the annals of literature. It is the story of a young man and woman who are in love. The story is a simple one, but it is a story of love. The story is a simple one, but it is a story of love.

When first published in 1859, it proved an immediate success. Victor Hugo read it and Lamartine crowned with laurel the brow of the young poet of Marseilles. When the French Academy, which had been the province of the Provencal language returned home, Roumanille, the arch-poet of that province, and drank to "Mireio," the most beautiful mirror in which Provence looked at herself, which is the best I can do with the play of words in the original, difficult to translate.

Good, the celebrated composer, added to the renown of "Mireio" and, as "Mireio," the opera has gone abroad. In the "Calendrier," Mistral, instead of again glorifying the life of the fields, departed from the charm and the philosophy of "Mireio" to sing the strength and valor of the craftsman and fisherman of the Arlesian country.

Twenty years later he gave "Nerto," which, like "Mireio," received the unique honor of being crowned by the French Academy, although not written in French. It represents the second phase of his mature talent. It is philosophical, serious and perfect in construction, original in the extreme, yet ideally beautiful throughout.

From 1875 to 1888 he devoted his time to his monumental "Trésor du Félibrige," in which are found all the words of the Provencal language, their derivations and an illuminating interpolation of fables, legends and sayings.

"Le Felo d'Or" (the Golden Island), Lou Fouque don Rose (the Poem of the River Rhone), "La Reino Jany" and a vast number of more fugitive contributions represent his life work. Tall and thin, not unlike "F. F. Cody," the famed "Buffalo Bill" in appearance, Mistral was a type of the free soil—one might say a westerner in that California of Southern France. If he looked like Cody, there was a great difference between the men, for the poet had an unconquerable abhorrence for riding, or travel, and the strenuous Cody has not been known as an international poet.

Mistral's existence was as near the ideal of a poet as it is possible to conceive. Half way between the ancient Avignon and Arles, close to St. Remy, in the "mas" (fruit rancho) of Maillanes, Frederic, as he was called, was born over four scores of years ago in a stone farmhouse of most humble architecture. The vineyard and olive orchard furnished to his ancestors and to him a modest, but sufficient, income for a frugal existence.

## POISONS THAT IRRITATE

When the delicate machinery of the body is not working harmoniously, poisons are retained that should be expelled. These may accumulate in the tissues and cause irritation. Should this irritation affect joints or muscles you have rheumatism; if a nerve becomes inflamed you have neuralgia.

But if the system is kept toned up with Dr. Williams' Pink Pills and no body poisons are retained, foods that once distressed you will be harmless, exposure will bring no rheumatism and neuralgia and even germ diseases need hardly be dreaded.

The lowering of the tone of the system which results from this blood is easy to recognize. Weakness is always present, a tendency to perspire and fatigue easily, ringing in the ears, black spots passing before the eyes, weak back, dizziness, wakefulness and unrefreshing sleep. These conditions Dr. Williams' Pink Pills will correct.

Dr. Williams' Pink Pills build up the blood and strengthen the nerves. In this way the general health is improved, the appetite increased, and new ambition and energy is developed. ing San Lorenzo Canyon for a band of robbers who early today dynamited the safe of the San Lorenzo postoffice and general store. Although the cracksmen used blankets and mail sacks to muffle the noise of the explosion, the jar of it woke the town. Road Anderson heard the noise of falling glass and, dressing hastily, ran to the postoffice. She found the "lookout" of the gang on watch and was warned off.

Returning to her home she routed out her father, who took with him his revolver. This time the lookout fired, but missed and Anderson repelled with five shots, driving the look-out into the store. The sound of firing brought more citizens, some of them armed with rifles, who surrounded the store. Finding themselves cornered, the gang opened a fusillade and bolted from a rear entrance while the citizens were still hunting cover.

They escaped with about \$250 in cash and a small quantity of jewelry. How many were in the gang is not known.

#### Long Man Lost on Title.

President G. F. Bovard of the University of Southern California yesterday received notice from the secretary of the International Society of Philology, Science and Art, with headquarters at Nottingham, Eng., that he has been honored with the degree of Fellow of the Society of Philologists. Six feet tall, and then some, President Bovard is long enough to carry all his titles which now are, A.M., D.D., LL.D., F.R.P., Drops Dead in Street.

F. M. Engel, aged 75, a wealthy retired farmer of Centerview, Mo., who, with Mrs. Engel, lived at No. 810 North Benton way, dropped dead at Seventh and Main streets early yesterday morning. At the Pierce parlor the body was identified by Mrs. Engel. The cause was rupture of the heart. The inquest was waived. Engel's body will be removed to Centerview for burial.

The psalmic hymns will be sung by the choir from Sulzer's synagogue music. Rabbi Dr. Farber will speak on "Serving by Proxy." The solo will be sung by Norman Hasler, baritone. Tomorrow morning the regular service will be of more than usual interest on account of the Sabbath being of special calendar designation. Dr. Farber will preach.

#### Temple Band Brith.

The Sabbath services at Temple Band Brith will be held this evening at 8 o'clock and tomorrow morning at 10:30 o'clock, with the children's Sabbath service preceding at 9:45 o'clock. Dr. Hecht will conduct the services and speak tonight on the subject: "The Family is the Basis of the State." Tomorrow the music at all services will be in charge of the Temple choir and will be according to the composition of Prof. Goldstein. The solo tonight will be rendered by H. D. Mustard, who will sing Barnard's "The Plains of Peace." Los Angeles: The Wonder City.

Another tribute has been paid to our city in a pamphlet written by James W. Abbott, entitled "Among Cities Los Angeles Is the World's Greatest Wonder." In 1906 the population was 100,000. In 1913 it was 200,000—making the twentieth century a record for growth. The explanation is logical: The resources are unparalleled, the climate has no equal, the industrial and commercial advantages are splendid—and the citizens are alive, energetic, progressive. Mr. Abbott reviews all of these points; every paragraph mentions some feature of distinction which has

and the worst is yet to come.

helped to make Los Angeles the wonder city. He has included statistics, reports, and other comparative facts showing the remarkable development—and he shows the growth in by no means complete, for the same advantages and opportunities remain open to the use of hundreds of thousands of more people. The pamphlet is illustrated with reproductions from photographs.

#### For Pity's Sake.

### THIEF IS COWED BY SCHOOL GIRL.

BRAVE MAID LOCKS DOOR AND MAKES MAN CRY.

Then She Turns Him Loose and Tells Hard-Luck Story—"Don't You Dare Draw a Gun!" She Orders Haughtily.

Encountering a sneak thief in the act of rifling her room at the El Dorado Apartments, No. 624 Bixel street, yesterday afternoon, Miss Pauline Meyers, a High School girl of 18 years, coolly locked her door and with no weapon but her will and her clear, direct eyes, forced him to give up jewelry he had stolen and to plead for his liberty with tears in his eyes.

Then, with the man in her power, she listened to a hard-luck story and allowed him to get out and away before she thought of the police. When Manager Frayne of the apartment-house had called up Central Station the burglar was out of sight. Miss Meyers, shaken by her experience, though her nerve had cowed a ruffian, said she had gone to her room on the third floor after coming in from school. Opening the door, which was unlocked, she found a small man just in the act of rifling her dresser. His hands, the whiteness of which impressed her, held a watch and rings, her property.

Locking the door, she advanced toward him. "Put those down!" she commanded. Though Miss Meyers is a slight girl, without the ring of command in her voice, her eyes are frank, direct, clear. The man gazed back at her a moment, then tamely put the jewelry on the dresser.

"Don't you dare draw a gun," she added, as the man made a motion toward his pocket. She assumed the role that might have been expected of the girl and sobbed, while he poured out a tale of woe. He told her that a man who owed him \$2 would not pay, that he was "broke" as a result, and was far from a hardened criminal. Moved by the exhibition of emotion, Miss Meyers allowed sympathy to weaken her when fear had not broken her nerve, and told the man to go. He went down the back stairs, which were unlocked, and about five feet six inches tall, weighing about 135 pounds, with a very thin face and abnormally white, tender hands. He wore a checked cap and blue clothes.

#### INDICTMENTS RETURNED.

Federal Grand Jury Returns True Bills Against Gang Accused of Smuggling Contrabands.

The gang of alleged Chinese smugglers, picked up at Wilmington on the night of March 14, followed later on by the capture of thirty contrabands, consisting of Clinton Culver, William E. Freeman, Chew Bing, E. G. Mason, Sam Wing and Dominick Sanfilippo, master of the gasoline fishing boat, Caspoda, were indicted yesterday by the Federal grand jury. Culver and Freeman were in charge of the Chinese; Chew Bing assisted them in landing the load at Wilmington; Mason is the chauffeur who went to Wilmington to get a "house party." He put H. Wing in the Occidente Chinese who has been a thorn in the flesh of the immigration authorities for years, and Sanfilippo was picked up at San Diego a week later, when he came into port with his boat from a fishing trip.

The Federal grand jury also returned indictments against Harry Williams, alias William Reed, and Pleasant Jackson, both charged with smuggling and having in their possession smoking opium at San Diego.

Isn't it a pity that they won't start this fight right away and end it right away, so that we could all get down to a real working basis and stop worrying about affairs to the south of us? If some of these statesmen and politicians and Mexican generals and Swiss admirals just had as much work as we have to do, taking care of the "Men Who Know" who want these special \$20 suits—order that we're making, there wouldn't be any disturbance in Mexico. They would be producing instead of destroying. They would be pleasing humanity instead of disgusting it.

 Entered at the Postoffice as mail matter of Class B.

**CHECKED UP.**  
 The Democratic postmasters of Pennsylvania are obliged to donate 5 per cent. of their salaries to those who procured them their jobs. This is a most pernicious system, especially when it is detected.

**GOOD BUSINESS.**  
 The widening of the channel between the inner and outer harbors at San Pedro to 1000 feet is a project the government cannot afford to neglect. There is no stopping half way on a proposition of this magnitude.

**NO SAVING.**  
 While it is true that the people can buy a round-trip ticket to California from any point in the world in 1915, we fail to see where they will save anything, considering the fact that so many of them will never go back.

**SECURING HIMSELF.**  
 Possibly if Ambassador Page loses his job he might become a subject of Great Britain and get appointed as an English diplomat to some post in Central America. He would then be entitled to his own opinion on the question of Panama tolls.

**NOT CONTAGIOUS.**  
 Under the title "Wild Grappa" a clever woman has written a novel about the selfish American wife who lives in Europe while her husband is working himself to death at home. The type is interesting, but not common. There are a great many more American wives in downtown offices making it possible for their husbands and themselves to get onto the income tax books.

**SOMETHING TO CELEBRATE.**  
 Chino is to celebrate an Alfalfa Day. Alfalfa is certainly a product to rejoice in, but one should not be compelled to eat nothing but alfalfa cakes and syrup to prove his joy. There is no good thing which the man with enough alfalfa may not afford. In fact men always sell one thing so that they can have something else. The farmer sells horse feed so that he can own an automobile.

**HORRIBLE BARBARITY.**  
 To lure the enemy inside the fortifications by a pretended retreat and then blow him up with dynamite exploded by wires connected with electrical batteries a mile or two distant may be civilized warfare, but it resembles the practice of poisoning the wells in a town before evacuating it. If the fighting near Torreón shall continue a few days it is likely to end with the extermination of both armies. Neither side takes any prisoners and both sides bayonet the wounded.

**PREVENT FOREST FIRES.**  
 Forest fires entail a waste of timber and frequently destroy homes and menace small towns. Practically all forest fires start through carelessness on the part of campers or workmen. A spark may set a mountainside of timber in flames. The California Forest Protective Association is attempting to secure co-operation on the part of loggers, campers and farmers as will establish a low fire loss in California for 1914. Toward that end instructions have been sent broadcast urging that all dead timber, windfalls, brush and other inflammable debris be piled and burned not later than May.

County Supervisors are urged to see that roads are cleared of brush and grass on each side so that fires started from burning tobacco and matches will not spread into adjoining timbers and fields. It is essential that measures for the prevention of forest fires be carried out before the dry season begins, for afterwards it is too late. So important is the need of prevention that the State Superintendent of Public Instruction has devoted two pages of the Arbor Day Manual for this year to forestry, with a view toward educating even the children to the necessity of taking all possible measures for preventing the destruction of property through forest fires.

**UNCERTAIN.**  
 The University of California seems to have some difficulty in explaining the origin of man. One of its professors thinks man was always pretty much as he is now. Another thinks that he grew up from some sort of molecule which got its start from spontaneous combustion, although heaven only knows what there was to combust and who laid the scene. Most premier performances have a stage director, and there has to be some fact and some place before there is anything stirring in the producing line. It would seem a very simple way out of it to say that the first man had parents if it did not prevent him from being the first man. Well, it is no worse not knowing how we got started than it is to have to guess how we will end. If anybody ever finds out anything more important than making the best of life as it is we would like to hear from him. We don't care so much about our origin, but there would be some satisfaction in knowing more about our finish. Perhaps there isn't going to be any finish. All that we can do is to rub a little lint on the places that hurt and laugh where there isn't any hurt. Not to have too much hope or any despair, not to be too curious nor too sure, but rather to be satisfied and a little glad about naked facts as plainly as we can see them would probably bring a man a good appetite and let him sleep well.

**SMASHING ALL AUTHORITY.**  
 Irrespective of the rights or wrongs of Ulster in the Irish struggle, the action of British officers in refusing to obey the orders of the War Department—whose servants they are—has struck a serious blow at the cause of law and order in the United Kingdom. For without a dependable army, loyal at all costs in carrying out the decrees of the government representing the will of the people, the maintenance of legal authority is an impossibility. It was the defection of the army under Louis XVI of France that paved the way for the reign of terror.

These mistaken officers may imagine that they were heading off home rule in Ireland. They were doing nothing of the sort. They were simply smashing the British army by destroying its discipline. The policy of the government was none of their business. That was simply a matter for the voters. But if the revolt of the aristocratic generals and colonels was foolish, no less foolish was the policy of the Liberal government in restoring to them their commissions. These fellows ought to have been cashiered and drummed out of the service. That the King indirectly interfered on their behalf makes it so much the worse for the King.

It is becoming more and more evident every day that there is too much of Louis XVI in the make-up of George of England. He is a good-hearted, right-principled monarch, but weak, oh, so deplorably weak! It requires tact and finesse to fill the part even of a figurehead. Edward VII displayed both. George V possesses neither. What has been the result of George's ill-considered defense of this defiance of discipline by the sworn servants of their country? When a laborite in the House of Commons made a pointed attack on the throne more than half the members present rose to their feet and cheered vociferously. What has been the result of a responsible government winking at the armed preparations for rebellion, openly carried out in the province of Ulster? Another labor member, who is also secretary of the Amalgamated Society of Railway Servants, gave notice to the House that he would have 900,000 railway men drilled and trained in the future to resist the King's troops in case of a general strike. And another labor member pertinently inquired why Tom Mann was prosecuted for advising private soldiers not to fire on strikers, when the King himself condones the same offense in officers who refuse to fire on rebels in Ulster.

The whole fiasco has set a perilous precedent for which both political parties are responsible; the Conservatives for encouraging Ulster to rebel, and the Liberals for condoning an act of treason on the part of officers in the British service.

Sir Edward Carson is magnetic and forceful, while the leaders of the Coalition Ministry, especially the Prime Minister, are wavers, men of half-measures and compromise policies. For this reason so far the Ulster leader has been able to dominate the situation. But the defection of the army officers, brought about with the secret connivance of the King, has carried the matter a little too far. So it has placed a strong weapon in the hands of John Redmond, of which so astute a politician and able a leader will not be slow to avail himself. It is no longer a struggle between the Orange and Green, it has become a fight between democracy and aristocracy, between the people and the crown.

Already there are rumors that a still more radical government will be formed in Westminster, headed by Lloyd George, the little Welsh firebrand. Whatever happens to the British Empire, John Redmond will sit tight, will not abate one jot or tittle of his demands for free and unhampered home rule for the Irish people. Whatever happens to the British Empire, Sir Edward will sit tight and go on arming his men in Ulster for a death struggle with any army sent to subdue the Orangemen. Between these two men political parties in England will be batted to and fro like a tennis ball, with the Irish Channel for a net and Belfast and Dublin playing for the championship.

And poor King George is asked to act as umpire in this contest of the giants; where one misdirected, smashing blow may knock the crown clean off from his royal perspiring brow!

**THE POLICY THAT IS FOREIGN.**  
 Members of Congress are to be amazed—too many of them eloquently disagree with Mr. Wilson's effort to give England control of the Panama Canal. The administration fears a free and open discussion; it prefers star chamber procedure—the caucus, a mannerly acquiescence to the requests of the President, no matter how the people and their representatives may feel.

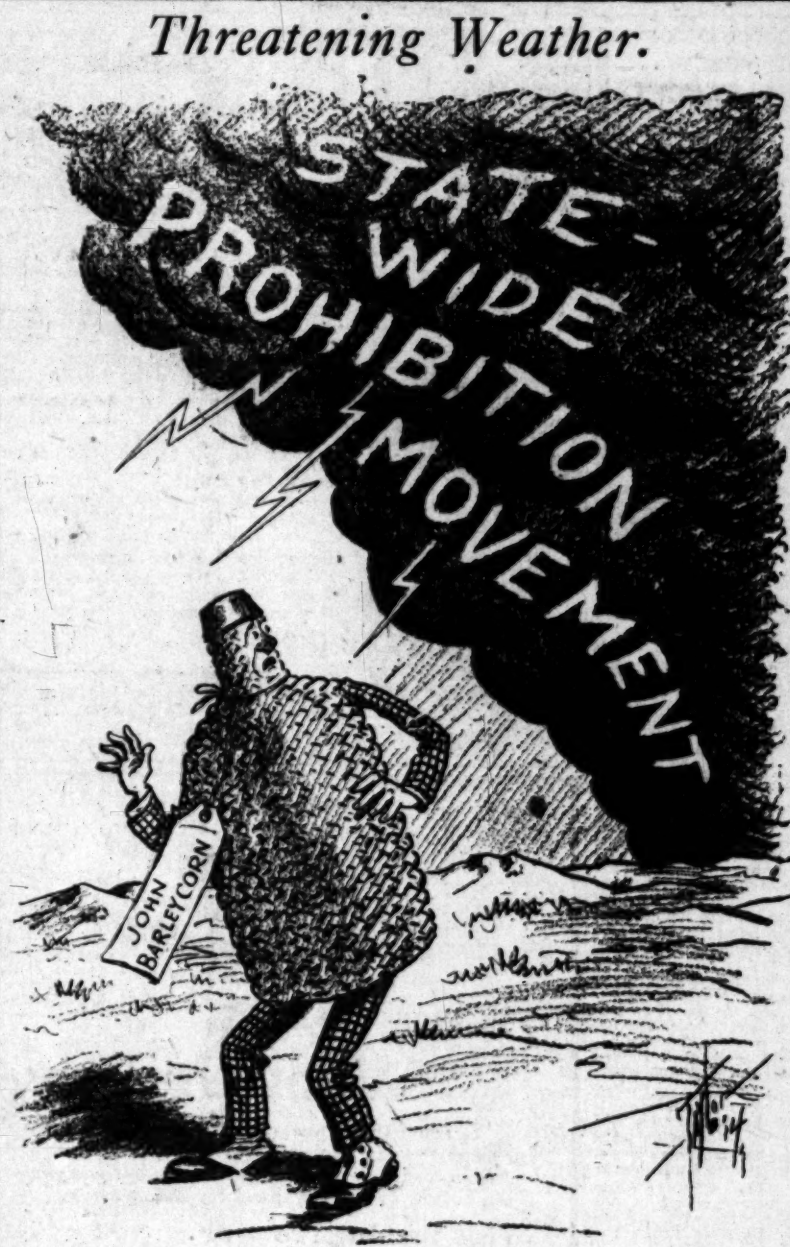

The Panama Canal controversy is of vital concern to the nation. It is more than a question of tolls with the subsequent financial bearing on American trade; it is also a question of principle, a precedent that may bind the government to a course of European subservience for generations yet to come. It is a question of so much moment that all differences of opinion should be freed from such despotic limitations as the Democratic majority of Congress proposed to set upon the remarks of those holding views contrary to Mr. Wilson's.

If the President intends to direct the policies of the government to suit himself his acts and utterances are intelligible. If he intends to serve the nation he should depend less on his own opinions and listen to those of the men whom the people have sent to Washington to speak for them.

But in making his appeal to Congress for the repeal of the toll exemption as demanded by Great Britain, Mr. Wilson asked it as a personal favor—as essential to him as a personal favor—as essential to him as the subject of a separate criminal or civil action—but you will be punished by the court for disobeying the order which it had the power to make and which it was its duty to make.

As has been beforetime said, injunction says to the union laborers: "You shall not picket the premises of the man whose employment you have voluntarily abandoned. You shall not insult and assault the men who have taken the jobs which you threw up. The man you would beat and send to the hospital may be able to send you to jail for your crime in assaulting him. But society does not desire to pay the cost of maintaining him in the hospital or feeding you in jail. Abandon your purpose of disorder. Let the worker alone who has taken your place. If you violate this injunction we will first send you to jail, without a jury trial, for contempt of court, and after-

ward we will send you to jail, without a jury trial, for contempt of court, and after-

ward you can have a jury trial for the assault."

"An injunction," says Eden on Injunctions. "Is not to compel persons to do right, but simply to prevent them from doing wrong."

To demand, as Bryan and Gompers and Secretary of Labor Wilson demand, that Congress shall enact a law that no injunction shall issue in aid of either party to a labor dispute, is class legislation of the most outrageous and indefensible character.

**THE BOY AND THE NOVEL.**  
 Don't fall out with the youngster because he reads a novel now and then. He is in no danger. He is only proving his possession of an imagination, and imagination is the extreme in the intellect, teaching a bad one, try to replace it with a better one, but don't rob him of his romance. Don't pin him down to history and the catechism. If you do you may be sorry for it. Every now and then romanticism has a little skirmish with realistic literature and realism becomes the fad for brief periods, but romanticism always comes out victor in the end. Why is this so? For precisely the same reason that a painted portrait is less attractive than a photograph, because it is reality plus the mind of its creator. Realism, no matter how great the issue it presents, is still compelled to stop at the stone wall of fact. Romanticism, no matter how trifling the subject matter, admits of endless speculation. The meaning of things, whether small or great, is always of greater import to the mind of man than are the things themselves. Realism carried to the extreme is ever the sophist, teaching sensationalism as the end of being. Romanticism is the philosopher, teaching the mind to search for truth behind phenomena. Because men love truth better than sophistry the romantic will live always in sacred and profane literature and in all art. Therefore don't worry if your boy likes to read a novel now and then. The boy who hides away from Sunday-school to sit under a big tree and devour "Treasure Island" or "Ten Weeks with a Circus" is in no danger whatsoever. Don't scold him. He won't want to run away and be a cowboy. His imagination will save him to real life. He is the boy who will settle down tamely enough when he finds the right woman, and he will have a house full of pretty babies and a library stocked with the works of Lytton, Dickens and Cooper.

**MARCH.**  
**WALT MASON IN THE TIMES.**  
 The month of March is full of starch, and pepper, too, and ginger; her divers gait no imitates, there is no cheap infirmer. One hour she's gay and mild as May, and makes you think of fishing, but while you look for line and hook, a blizzard comes a-awashing. March seems to sing of balmy spring until she has you grinning; and then, oops blood! your name is Mud, and Winter has an igniting. March hums a tune suggesting June or dreamy, mild September, and while you list she gives a twist and brings in bleak December. This rattled maid, bold, unafraid, is playing tricks for ever; to jolt our nerves with gray curves is always her endeavor. She gives us rain till we complain of pink pains in the gizzard; she gives us heat and winds and sleet, and thunderstorm and blizzard. She winks her eye and springs July, and then sings in October, till we see red, and wish her head were soaked till she is sober. But soon she'll slide, and bang her hide, and April, soft and tender, will come and smile in siren style, and fill the world with splendor.

**Hard to Sult.**  
 [Tatter:] Customer: Don't sink much of yer cawfee tonight, Chawlie.  
 Coffee-stallkeeper: There yer go, always grumbly. One of these nights yer'll be expectin' the miasma and me ter do a bloomin' tango round the stall fer yer amusement while yer 'avin' yer supper.

**Different Callings.**  
 [London Tit-Bits:] She: Lizzie's bloke calls 'er 'peach and happle of 'is eye. Why can't you call me things like that?  
 He: Nux, that's very well, but 'e's in the vegetable business. I'm in the fish trade, remember.

**Pen Points: By the Staff.**  
 Heavy fighting is reported about the Tinnin and Torreón.  
 A few New Zealand yeas are in the local market. They are coming out at a time.  
 It is understood that Panama Canal tolls will not be served at future White House functions.  
 The English sparrows at San Francisco have been doomed to die, but first eat your sparrows.  
 Sir-Eulian Abdul Hamid is reported to be again. And he was just recovering from his other demise.  
 Anyhow, Premier Asquith can claim to give that, if he has a case of fright, it was not caused by Mrs. Pankhurst and the suffragettes.  
 President Wilson is also "waiting" the result of the contest in the Tinnin on the repeal of the Panama Canal toll law.  
 Suppose Secretary Bryan should have a voice, there are phonograph records that may be utilized in the next Democratic National Convention.  
 In the California registration the Democrats lead in forty counties and the Republicans in two. (Friends are looking for an interval will be private.)  
 Gov. Colquhoun should not be so much abused. He has so far failed to call a special session of the Texas Legislature. For that he is to be commended.  
 Something to worry about—what do you do when the earth reaches a figure 8 in relation that the products of the soil will be taxed to the limit to support.

**FOREIGN VIEWS.**  
 The remains of a prohibited animal elephant have been discovered in a cave. Probably belonged to a Buffalo Bill who when Cody was on his first tour in the West.  
 The thirty days of grace given the owners of Pasadena, under the new city ordinance, will give the men folk a chance to get rid of their Christmas gifts.  
 Uncle Sam will no doubt do something by Queen Eleanor of Romania, but will soon be in this country. A decent some kind would be an appropriate one.  
 What is Link Steffens doing in the unrest of this old, warlike world? He has been in a state of suspension since Judge Bordwell's election.  
 Judging by the amount of money Henry E. Huntington has lavished on the library of Will Shakespeare, the Avon might yet be quoted as one of the best sellers.  
 The apple trees of California are weeks ahead in blooming this year. Simply couldn't remain quiet while the costs were shedding their blossoms on the summer air.  
 The prediction is made that it will be possible to talk across the Pacific Ocean through a telephone. Samuel Finley Breese Morse was put his ear to the receiver.  
 Only 19.1 per cent. of the time that the California Highway Commission was in session was devoted to the discussion of the proposed definite steps can be taken to secure the completion of the highway.  
 The conditions imposed on the prize fighter, are all right, but are carried out, which we very much regret. However, Clabby is temporarily out of the clutch of the law and that is all that counts.

**THE FAVORITE.**  
 Cried Man, grows bold:  
 "Though my life is a hell,  
 As a that day is told,  
 As sands in the desert,  
 Still—the bridge I have built,  
 And my servants, the men,  
 The fire, and the flood,  
 And an oath he swore,  
 "By the holy rock,  
 My work it is good!"  
 But the Father smiled:  
 "Be still, my child."  
 Roared the Sea in his rage:  
 "This boaster to chide,  
 Lord, shall I smile,  
 The fool in his pride,  
 And the leashed wild beast,  
 "To humble this day."  
 And the Father smiled:  
 "In its lurid play,  
 At the feet he kneels,  
 "Mid me burn as I smile."  
 Bled the Master:  
 "Peace, slaves! Obey,  
 [Anna Glen Stoddard, a woman who is termed munificent.]

Heavy fighting is reported at San Francisco and Turin.

A few New Zealand pears are in the local market. They are coming two at a time.

It is understood that Panama Canal water will not be served at future White House functions.

The English sparrows at San Francisco have been doomed to die, but first catch your sparrow.

Re-Sultan Abdul Hamid is reported dead again. And he was just recovering from his other demise.

Anyhow, Premier Asquith can claim with good cause that if he has a case of fright, it was not caused by Mrs. Pankhurst and the girls.

President Wilson is also "wonderfully waiting" the result of the contest in Washington on the repeal of the Panama Canal toll law.

Suppose Secretary Bryan should lose his voice, there are phonograph records that may be utilized in the next Democratic National Convention.

In the California registration the Republicans lead in forty counties and the Democrats in two. (Friends are invited, but no interment will be permitted.)

Gov. Colquhoun should not be so much abused. He has so far failed to call a special session of the Texas Legislature for that he is to be commended.

Something to worry about—what shall we do when the earth reaches a figure in population that the products of the earth will be taxed to the limit to support.

The remains of a prehistoric mammoth elephant have been discovered in Oregon. Probably belonged to a Buffalo Bill when Cody was on his first farewell tour.

The thirty days of grace given the members of Pasadena, under the new city ordinance, will give the men folks a chance to get rid of their Christmas cigars. Smokers?

Uncle Sam will no doubt do the handsome thing by Queen Eleonora of Bulgaria, who will soon be in this country. A clever woman, some kind would be an appropriate welcome.

What is Link Steffens doing in the present unrest of this old, workaday world? He has been in a state of suspended animation ever since Judge Bordwell applied the cat gut.

Judging by the amount of money that Henry H. Huntington has invested in the library of Will Shakespeare, the book of the world might well be quoted as one of the best sellers.

The prediction is made that in six months it will be possible to talk across the Atlantic Ocean through a telephone. If so, Samuel Finley Breese Morse was here to put his ear to the receiver.

Only 19.1 per cent. of the insane committed in the California asylums for 1913 were native-born. The others probably came from remote places because they did not come to the Golden State last year.

The conditions imposed on Jimmy Cullen by the prize fighter, are all right if they are carried out, which we very much doubt. However, Clabby is temporarily out of the clutches of the law and that is the point with him.

Secretary Franklin K. Lane will take a summer trip through Alaska for the purpose of locating the new Alaskan route. Franklin needs a season of rest after his tiring appointment of the last few days as director of Customs.

With war in England, Peru, Russia, France, Mexico and Tripoli it would seem that the Bryan dove of peace would be the trying time of its innocent life. Why doesn't the Bryan dove dream of going to the relief of the bird?

Chairman Underwood opposes the proposition of the President on the grounds that the Panama Canal tolls. He is old-fashioned Democrat to believe that a party ought to be carried out by the President.

Champ Clark is out in the open to the position of President Wilson on the repeal of the Panama Canal toll law. And William Jennings Bryan is not in a position to help Woodrow as he did at the Baltimore convention. Champ is from county and must be shown.

WEDNESDAY MORNING.

FIRST GLAD WELCOME  
HERE FOR THE FLEET.

American and Foreign Battleships to Be Received With Pomp After Negotiating Canal—Entertainment Committee Plans Big Things for Exposition Year. Beauty and Enthusiasm Features in South.

LOS ANGELES will be the first city to officially welcome the great fleet of United States warships following the opening of the Panama Canal. At the same time the harbor vessels will also linger in the harbor when on their northward trip to San Francisco.

It is the programme as it is now in the minds of both the War and Navy Secretaries, according to the official statement, although there is a possibility of a change at any time.

Although the departments are following the lines mentioned in the official statement, they may not wholly or in part at any time. Everything depends largely on the conditions and conditions at any time.

The present arrangements state that the first detachment to go to the canal will consist of the battleships, probably the sixteen in the navy, accompanied by a few smaller vessels, making but one trip to the canal, and then on to San Francisco.

After the battleships have gone on to the canal there will be a detachment of twenty-four to twenty-eight smaller vessels, including the battleships, making but one trip to the canal, and then on to San Francisco.

## Some Hand! FOUR KINGS IN BENSON'S DRAW.

Audience Faces Monarch at Every Turn.

Stratford-on-Avon Players Turn History's Pages.

"Richard II" Big Subject for Stage to Attempt.

BY HENRY CHRISTIE WARMACK

Well, we have another king for breakfast.

They won't look at anything in the way of a play at the Masons any more unless it contains at least two kings in full regalia, served with some dozen dukes and princes on the side. With them go a proper amount of queens and pages, not to speak of the heralds and their horns, which are shown on the stage, but blown in the pit of the orchestra.

Every time a horn sounds for a month of Sundays to come, a shuddering audience will expect a king to spring out at them from the wings of the stage. It is getting so that a man can't go to bed at night without dreaming that he is Falstaff and too full to be comfortable or that he is Richard II on the way to the Tower with a shock of yellow hair falling in his pathetic blue eyes, which is some dream for a brunet.

I am afraid "Richard II" belongs to the Apocrypha of Shakespeare. I never found him in the St. James version. He isn't orthodox. Heretics are entertaining, but not profitable. If Richard II wants to lead around the Shakespeare temple of fame he is welcome, but at that he doesn't need to come except when sent for we will not see much of him.

He is too historically large to be commercial, but at that the Stratford-on-Avon players gave us a plausible performance and in it P. R. Benson did the finest work of his life. He is not only a king, but a Shakespeare, and he is splendidly indifferent to what the people care for, if he thinks they should care for something else. He is much in favor of a Shakespeare of universal scope, even if we are obliged to swallow every line that England ever had to bring us under the proper conviction. The king business has always been precarious, but not profitable. It is not necessary to dip into the Apocrypha of Shakespeare, as the greatest man who ever lived, had all of the majesty, majesty and righteousness of all of the kings on the end of his tongue, in the pulse of his brain and in the marrow of his bones. Probably the only thing he heard to this day is that he didn't wait for the career of Napoleon Bonaparte to give himself one last fling at the dismemberment. What a whaling good time he would have had dragging the "Merry Wives" through a few Waterloo and Elbas! His pleasure in the task could only be equalled by that

### Close the Unwanted Actors.

LOS ANGELES motion-picture enthusiasts are to have an additional treat tonight and tomorrow night. The Ad Club boosters have not only selected the best from first-class reels, but now announce that the real people of these stories are to appear and greet the guests of the "On to Toronto" Benefit Committee, who are holding open house at the Auditorium Theater each day from 11:45 a.m. until late at night. Last night Fred Mace, who had been present all day upon the silent screen, appeared and proved that he is equally funny in reality as in the spiritland of the "movies." D. W. Griffith, director of the production of the "Judith of Bethulia" pictures, which are featured by the Ad Club boosters, was present and explained the mysteries of the making of a mammoth a reel. A sell night will greet those attending the pictures on Friday night, for then one of the wonderful wild animal pictures will be shown, and at Southern California.

# Alfalfa Crop's Success

## ASSURED IN SAN JOAQUIN.

**[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]**  
**STOCKTON, March 26.**—Owing to the abundant rains, alfalfa cutting will commence early next week in many localities, and the success of the season's crop is assured because of the fact that the cutting is starting fully two weeks ahead of the usual time; in fact, so early that the alfalfa growers hesitate to cut because of the difficulty of properly curing the product at this time.

Williamette picked it up off Eureka, and Capt. Reiner recognized Lusnak as a passenger who had got on at San Francisco. The vessel is bound for Seattle and Capt. Reiner will turn his prisoner over to the police there.

**RAILROAD COMMISSION SAYS THE STOCK MAY BE SOLD ONLY IN COMMUNITY TO BE BENEFITED.**  
**[BY A. P. NIGHT WIRE.]**  
**SAN FRANCISCO, March 26.**—In the authority today to the Marin county electric railway to construct a street railway line in Mill Valley and to sell \$67,000 in stock to the community, the Railroad Commission let it be known that in undertaking of this nature the selling of stock must be confined to the community that is to be benefited by the project. In this connection the commission said:

"I believe it is well here to reiterate the position previously taken by this commission on matters of this kind. When a community desires that a certain utility or branch of a utility be constructed and is willing to incur the expense of a new enterprise and when responsibility is assumed with full knowledge that such benefits may accrue must come from other sources than the sale of the securities of the enterprise, it is proposed to sell these securities in distant communities lacking in proper knowledge of the enterprise, the commission has no right to exercise its authority to prevent the sale of such securities."

**CLEARED BY DEATH.**  
**Man on Trial at Kemet for Violation of Game Laws Is Out in Two Days by Southern Pacific Train.**  
**[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]**  
**KENNET, March 26.**—During the noon recess of the court in which he was on trial for violating the game laws, Frank Lockhart of Delta was removed by a freight train in the Southern Pacific Company's yard here today and killed. The deceased's brother, Preston Lockhart, and John Shenton, also of Delta, were co-defendants with him in the trial.

Following the death of Frank Lockhart, court was reconvened, and the motion of Dist. Atty. Chenoweth, Judge Harry D. Anely dismissed the charges against all three defendants. The train went through the yards at a good rate of speed shortly after noon, and Lockhart attempted to climb on a car to ride to the station. In the attempt he lost his hold and fell on the rails. His body was cut in two.

**THE "ROWBOAT" MYSTERY.**  
**Man Said to Be an ex-Convict Is Being Investigated by the Seattle Police Department.**  
**[BY A. P. NIGHT WIRE.]**  
**SEATTLE, March 26.**—Row Morehead, said by the police to be an ex-convict, was arrested today and held for investigation of what is known as the "rowboat" mystery. Three men have identified Morehead as the man who, under the name of McDonald, rented a rowboat at Salmon Bay Saturday night. The boat was afterward found drifting, waterlogged, with hair and blood on one of the oars.

**ADELINA PATTI**  
**The Queen of Singers.**  
**There was a time, and it is not entirely passed when to mention prima donnas you would instantly think of Adelina Patti. She was born in Madrid, Spain, and her parents were operatic singers of Italian ancestry. She first sang at an early age in New York, but her fame was secure after her first appearance in London, and from that time she held high rank as one of the first singers of the day. The rich, full, clear quality of her voice and her remarkable evenness of tone had a range as a high soprano never surpassed, and her cadences and trills were of delight to her admirers. Equally at home in tragic tenderness of grand opera, or vivacity of comedy, or sturdiness of oratorio, Adelina Patti will owe much of her fame to the way and manner in which she sang "Comin' Thro' the Rye," "Marguerite" in Gounod's "Faust," "Year after year she continued to make farwell tours in America, and year after year she sang the sweet Scotch ballads with all the fervor of Latin blood. She lived in a castle in Wales for the mature years, where she delighted to sing for friends, and on special occasions for charity. The divine Patti never underestimated the value of the songs that touched the heart. "The Last Rose of Summer" is a song that will always be identified with Patti.**

**I'm willing to make a sacrifice. I'm willing to close out what is probably the largest and finest piano stock in Southern California, for considerably less than it cost me. Of course I could ship the pianos to one of our Northern house (twenty stores on the Coast now bear the Ellere name.) but even if I did that, it would simply mean added expense in freight charges and risk of damage, and the instruments would still have to be sold. So I'm determined to pocket the loss, to "grin and bear it," and to sell the pianos right where they stand, for cost or less or less, and on almost any terms that you may care to mention.**

## Public Service: City Hall, Courts.

**SUMMARY OF THE DAY.**  
Protests of proponents of the First-street tunnel against this project being separated from the Second-street tunnel project, made yesterday before the Public Works Committee of the Council, halted any recommendation that the latter proceeding be started independently. A further hearing is set for next Tuesday afternoon at 2 o'clock.

The United States Board of Engineers at Washington will take up on April 7 the further consideration of a 1000-foot channel for the harbor. Meanwhile a plan for commencing work for the wider channel back of the Salt Lake tracks on Terminal Island will be presented.

The Police Commission yesterday sent to the City Council its recommendations for changes in the proposed ordinance placing private detectives under regulations of the board.

Information of perjury was laid before the District Attorney by Judge McDaniel yesterday, the alleged act taking place during the trial of a suit to recover money loaned.

**At the City Hall.**  
**MUST ASSURE BOTH TUNNELS.**

**NORTH-END PROPERTY OWNERS INSIST UPON THIS.**

They Tell Council Committee that First-Street Bore Must Not Be Sidelined and Object to Starting One for Second Street Independently—Hearing Is Continued.

The temper of property owners who have worked so ardently for the construction of a tunnel for West First street was clearly shown yesterday at a hearing on tunnels before the Public Works Committee of the City Council when President Snodgrass of the West First-street Tunnel Association, and D. K. Edwards, member of the County Highway Commission, and R. W. Kelly of the N.E.W. Commercial and Improvement Association emphatically declared that they would not submit to having the First-street bore sidetracked and the proceedings for the Second-street tunnel started independent of the combined proposition.

The Public Works Committee had prepared a report, signed by both Councilmen Bryant and Snowden, in which it was recommended that, while it is in favor of the construction of both tunnels, it believes that the Council should require the City Engineer to prepare and present forthwith the necessary plans, specifications, and ordinance of intention for the Second-street tunnel, while further time be allowed the committee in which to make a report on the First-street tunnel, as the conditions incident to the construction of this tunnel are somewhat complicated at this time.

The committee's report, however, was not presented. There were many persons present in favor of the immediate beginning of proceedings on the Second-street tunnel, notwithstanding the First-street proceedings. It appeared as though a preconcerted attempt had been planned to stampede the committee and rush action through for the Second-street bore, regardless of previous pledges that the two tunnel projects should go forward simultaneously. Various speakers addressed the committee, urging that there be no delay on the Second-street project, notwithstanding the combined situation, wherein one proposition must support the other if they are to be carried forward.

Kelly declared that every property owner in the north end of the city was vitally interested in the construction of the First-street tunnel, and that the people whom he represented would insist that if the Second-street tunnel proceedings are started, there must have definite assurance that the proceedings for the First-street tunnel will not be protested out.

D. K. Edwards declared that there will be very strong opposition to the separation of the two tunnel projects. "We are not going to let them be separated," said Edwards. "The First-street tunnel is of prime importance to the public, and will use every means at our command to see that it is carried along in the combined proceedings, according to the agreement that has been reached after long delays."

President Snodgrass of the First-street Tunnel Association declared that his association must insist that there be definite assurance given as to the certainty of the First-street tunnel, and that the two projects must be combined if they are to proceed at all.

Among the speakers favoring immediate proceedings for the Second-street bore were Fleiding J. Stilson, Miles Gregory, Samuel Storrow and Arthur Letts.

Storrow stated that he believed the plans of the City Engineer for this tunnel are all right, but that when these proceedings are started there should also be an ordinance of intention adopted, committing the Council to the First-street project as well. Letts asked that immediate work be started. He stated that the Council would proceed for its construction, to make an investment of a million dollars. He urged that it will be necessary soon to close the Third-street tunnel until it is reconstructed, and that the Second-street tunnel will be an urgent necessity in this situation.

"There should be a 100-foot tunnel for First street," declared Letts. "I believe the best interests of the city demand the finest improvement that can be secured for First street. I believe in the north end of the city. It will be a disgrace to the entire city to let it deteriorate."

"I believe it will be for the best interests of the entire city to establish for all time the civic center of Los Angeles around the postoffice and Courthouse. Then when the Pacific Electric building station on Fourth street and opens a tunnel for beach traffic we will have a solid and permanent city nucleus. That is as it should be."

Cornelius Cole and J. M. Hunter, representing Hollywood and Colegrove, declared that their people were not against the tunnels, but that they would object to a heavy assessment, and believed that the bulk of the tunnels cost could be borne by the district downtown directly interested. The committee finally decided to continue the hearing until Tuesday afternoon at 2 o'clock.

Yesterday forenoon Vice-President Dunn and Engineer Kuhns of the Los Angeles Railway Corporation conferred with the Board of Public Works on the subject of that corporation paying its proportion of the cost of the First-street tunnel. They stated that if the State Railroad Commission granted the necessary permission and a proper franchise is secured to safeguard the required investment, the corporation would be willing to join the city in the tunnel construction.

**HARBOR CHANNEL.**  
**PLAN FOR WIDENING.**  
Congressman Stephens sent a message to the Harbor Commission yesterday, stating that its statement as to the willingness to provide for removal of trackage to make way for a 1000-foot channel at the harbor had arrived too late for consideration by the Board of Engineers at its meeting the previous day. This will be taken up on April 7. Stephens stated that the attitude of the board was that if the 1000-foot channel is decided upon, and appropriation made for work on only a 750-foot channel at this time, the railroads would have to make their temporary roads and wharves over the additional space that would be utilized later for the channel.

Secretary Matson yesterday conferred with Army Engineer Raymond upon a plan to commence the widening of the channel back of the present trackage on Terminal Island, so that the railroads could put their permanent work along this channel line when it is completed, allowing the present trackage to remain on a spit in the harbor until the permanent work is completed. This would be carried as far as the appropriation would go and then continued with later appropriations. Raymond approved the plan and Matson will submit it to Congressman Stephens so that he may lay it before the Board of Engineers on April 7.

At the Courthouse.  
PERJURY CASE IS DEVELOPED.

DEFENDANT IN CIVIL ACTION REFERRED TO SHERIFF.

Testimony Produced on Part of Plaintiff to Refute Assertions So Effective that Judge Orders Matter Placed in Hands of the District Attorney.

Testimony in the suit of John A. Baxter to recover from R. M. Dewitt money lent him, yesterday developed, in the opinion of Judge McDaniel, who tried the case, a clear case of perjury on the part of Dewitt. He laid the information before the District Attorney, who ordered a transcript.

Baxter was formerly in the livery business in Monrovia. He set out and alleged he advanced Dewitt money to go into the livery business. In substantiation of this assertion he produced cancelled checks.

Dewitt denied owing Baxter money, asserting that the opposite was the case. He stated that he had advanced Baxter money to go into the livery business. In substantiation of this assertion he produced cancelled checks which Baxter held. Dewitt asserted that he came into possession of \$1000 by winning the amount on a race at the Arcadia track.

Counsel for Baxter, proved to the satisfaction of the court that the cancelled checks had been passed some months before Dewitt is alleged to have won the money and that therefore he could not have placed money on a race at Arcadia.

Dewitt also stated that the money had been lent Baxter to complete a building he was constructing. Counsel for Baxter showed that the building had been completed at the time stated by Dewitt.

Judge McDaniel said a clear case of perjury had, in his opinion been made out, and that he was his duty to turn Dewitt over to the Sheriff.

Dewitt's attorney, J. H. Foley, pleaded in extenuation that his client had had a serious operation on the head and that he was not responsible for the contrary statements. He pointed to the fact that Dewitt had almost collapsed on the stand during Dewitt's cross-examination.

This brought the remark from the court that the witness, with nervousness affected under similar circumstances. Judgment was given Baxter for \$200.

**PROVES FRAUD.**  
**FORCLOSURE DENIED.**  
Emma V. Matthews and Lella H. Page, dressmakers, who invested their savings in a one-eighth interest each in a mortgage and brought suit against Frank O. Wilson and others to foreclose, lost out in Judge Hewitt's court yesterday. He denied the foreclosure on the ground that Wilson fraud had been induced to give the mortgage on 1200 acres of land near Glendale.

The story as the testimony brought it out was that Christian Jantzen, a real estate operator, negotiated the sale of the acreage for the owner, Mrs. Maud T. Taylor, who has since died. Jantzen testified that Jantzen showed him some beautiful land, but which it developed was not the land he gave the \$10,000 mortgage to.

When Wilson discovered the fraud, he wanted the deal declared off. Last season there was action on the land. Meantime, Jantzen sold one-quarter of the mortgage to the son, J. J. Wilson, who is now living in Los Angeles. Wilson then conveyed the land to his son, J. J. Wilson, and the remainder between himself and his wife.

**PREFERS DAZZLE.**  
**DOMESTIC LIFE PAILED.**  
Because Pascal H. Farone, formerly a clerk in the law offices of C. V. Rice, now a sequestered man, preferred wife, woman and son to domestic peace, Mrs. Louis Catherine Farone obtained yesterday a brutal and sought the divorce court.

"He said he was tired of me," she stated to Judge Works yesterday. "He said he was tired of me, and he wanted to go back to the women of the class he knew before we were married."

Mrs. Farone is a bride of a little more than a year, but she alleged that daily during their married life Farone cursed her and threatened to take the child from her as soon as it was born. On one occasion she was compelled to flee from her home at night and take refuge with friends.

judgment against the latter three years ago. The judgment was obtained by Bank Superintendent Williams against Tanaka and five other Japanese. The sale was set for yesterday, but Tanaka alleged that the attorneys who appeared for him were not authorized and on this ground the injunction was granted.

Williams brought suit as receiver for the State on promissory notes given by a number of Japanese for money loaned by Japanese banks which are now defunct. He has collected through Schweitzer & Hutton judgments amounting to \$16,000. The suit against Tanaka and others was to collect judgment for \$1000.

In Effect That's What the Court Concluded When Girl Slaps Hulk of a Fellow.

Though Lillian Schickles, an actress of the featherweight class, slapped the face of Roy Wells, who might box in the heavyweight division, if he were a boxer, she did not disturb the peace. So Police Judge Williams decided yesterday morning, after hearing the little woman tell the story of trouble at No. 1343 South Main street, where both parties have apartments.

She told the court that when Wells attempted to enter her apartment she called him "idiot" and he retaliated with torrid language. When she slapped his face he countered with a warrant of arrest.

**SHOWS ABILITY.**  
**WOMAN QUALIFIES.**  
Miss Sarah E. Carter qualified in the Probate Court yesterday as guardian of her father, Benjamin F. Carter, president of the B. F. Carter Land Company at Lancaster. Back of the appointment in the morning was her brother and sister, John H. Carter and Mrs. Bertha E. Cameron, is the ability to represent her father's holdings in the corporation, estimated to be \$500,000.

Miss Carter virtually becomes her father's successor in office and with characteristic energy she plunged into the work yesterday after her petition had been granted. Carter is 83. For some time he has been ill, and this, combined with advanced age, made it imperative that he be relieved of the burden the presidency imposed upon him.

The corporation owns several thousand acres in Antelope Valley. The petition estimates Carter's personal property at \$100,000 and the real property at \$500,000. Attorney Hanna represented the guardianship proceedings.

**ANOTHER DECREE.**  
**REMARRIAGE A FAILURE.**  
The final chapter in the marital life of Dr. Paul Keller and Eva Keller of Long Beach came in the divorce court yesterday when Judge Monroe granted Mrs. Keller a decree on the ground of cruelty; awarded her the custody of the two minor children and granted her \$25 a month alimony for the support of the youngest child. A bungalow was also declared to be her separate property.

The Kellers were married at Lebanon, Ill., September 9, 1891. They were divorced by Judge Monroe on the ground of cruelty February 4, 1907, and remarried in 1911. Dr. Keller is a Long Beach dentist.

## TIGERS AND TROJANS GO.

Sixty-six Athletes Leave on  
Steamer Yalo.

Trojans Should Have Cinch  
With Freshmen.

Tigers Are Laying for the  
Bears.

BY WILLIAM M. HENRY.

Sixty-six young athletes, carrying  
with them the hopes of the South-  
land, sailed yesterday as the last and  
largest installment of the big north-  
ern invasion.

Included in the bunch were the  
track and baseball squads of Occiden-  
tal College and the track and tennis  
representatives of U.S.C., while ac-  
companying each aggregation went  
several rooters.

Unless such unforeseen incidents as  
occasionally are precipitated by the  
roughness of the sea occur, the Tigers  
and Trojans expect to be in first-class  
shape for their tussle with California  
on Saturday afternoon.

The Trojan meet with the Califor-  
nia freshmen provides little food for  
thought, the chief question being  
speculation on the size of the score.

The Bear babes possess apparently  
only two first-place men—Nichols in  
the high jump and Swain in the "wom-  
mle"—and interest principally cen-  
ters in the performance made by the U.S.C.  
runners.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

MILWAUKEE, March 26.—  
Freddie Andrews, Ad Wolgast's  
training partner, who fought  
Mickey Rodgers a fast draw at Grand  
Rapids, Mich., Tuesday, with Ad as  
his second, has returned with the in-  
formation that Ad Wolgast will not

four bouts on the Coast. The propo-

down trap for the Bears, which con-  
sists in attempting to lower the colors  
of the Blue and Gold in their special-  
ties, the 880, mile and two-mile, in  
addition to both hurdles.

Capt. Harry Kirkpatrick, as far as  
was yesterday visible to the naked eye,  
has entirely recovered from his  
strained muscle and will be in condi-  
tion to put up the race of his life in  
both the 100 and the hurdles. Kirk  
is capable of 10 1-5 consistently in  
the century, 15 2-5 in the high and  
25 flat in the low hurdles. These  
marks are liable to win him thirteen  
points.

Sam Pritchard is being saved out  
of the mile for the express purpose  
of relegating Mr. Zelle of California  
to the second row. Pritchard has  
won his races so far by such a wide  
margin that it is hard to tell just  
what he can do, but it is rumored on  
good authority that the Tiger fresh-  
man has negotiated the distance in  
better than 10 minutes already.

A GREAT MILE.

Bill Annin and Harry Wood are go-  
ing to stage a little grudge battle in  
the mile run. Last year the all-con-  
quering Wood was passed up in a  
sensational sprint by Annin and left  
some fifty yards to the bad in  
4:22 2-5. This year Wood has done  
4:24 1-5, but Annin hasn't made any  
attempt at time and figures that he  
has a fine chance to repeat his sena-  
tional performance of last year.

Crable in the 880 is another wor-  
ried young man. Unless Annin is too  
badly worn out after the mile he will  
push the Bear captain to his limit to  
win. Annin is in the pink of condi-  
tion, having been saved throughout  
the season for this northern trip and  
should put up a great race unless the  
sea gets nasty on the way up.

This afternoon on the Oakland  
Coast League grounds, Occidental will  
meet St. Mary's in baseball in what  
promises to be a great game. The  
Tiger heavies, Walk, Ball and Mor-  
tino, are all in good shape, but Walk  
centrally for this northern trip and  
should put up a great race unless the  
sea gets nasty on the way up.

Pomona and Stanford are to meet  
on the Cardinal track today and the  
Pomona boosters are promising some  
sensational time in the 220 and 440-  
yard dashes and the relay. The Po-  
mona sprinters have been showing  
rare form of late and it would not be  
at all surprising to see records fall  
shorter and relay.

## SEATON MUTINIES AGAINST FEDERALS

[BY A. P. NIGHT WIRE.]

CHICAGO, March 26.—Determi-  
nation of Tom Seaton, a pitcher, to  
"play with the Chicago Federals or  
not at all," reported in dispatches  
from Shreveport, La., today, further  
complicated affairs in the Federal  
League. Even Manager Tinker,  
though loath to do so, advised Sea-  
ton to join the Brooklyn team, said  
the report, but Seaton declared he  
would play only with his old team  
mate, Ad Brennan, who is definitely  
attached to the Chicago club. Sea-  
ton's declaration followed announce-  
ment by President Gilmore that the  
pitcher rightfully belonged to Brook-  
lyn and must play with President  
Ward's team.

The sale of Outfielder Coles to the  
Kansas City Federals, reported at  
local headquarters today, was in-  
directly the result of the Seaton mix-  
up. Coles was to be given to Brook-  
lyn in part payment for Seaton's re-  
lease to the Chicago team, but when  
the deal fell through, Manager Stovell  
of Kansas City bid for the outfielder.

## SOX MUST MEET TERMS OF SCOTT AND WEAVER.

Pitcher Says They Are Merely Awaiting Outcome of  
Killifer Case in Courts—Ready to Go if This Favors  
Players—Willing to Stay if Chicago Will Meet Big  
Bid Made by the Federals.

BY HARRY A. WILLIAMS.

UNLESS the Chicago White Sox  
meet the terms offered them by  
the Federal League, Jim Scott and  
"Buck" Weaver will jump to the in-  
dependent organization—providing  
the law does not interfere.

These players simply are awaiting  
the outcome of the Killifer case, which  
is now in the courts, before taking  
final action.

Both admit receiving handsome of-  
fers from the Federal League. These,  
it is said, more than double the sala-  
ries specified in the White Sox con-  
tract, which they signed while abroad,  
when in ignorance of the big money  
being offered by the Federals.

BUCK ADMITS IT.

Weaver admits having received a  
big offer from the Federals. This he  
said to name \$30,000 as the sum to  
be paid him for three years' work.

Beyond this, acting on advice of  
counsel, meaning U. Gene Doyle, he  
refused to talk.

Scott was more outspoken, and con-  
versed straight from the shoulder.  
If the Sox management meets the  
Federal figures he will stay. Other-  
wise, he will pack up the extra shirt  
and collar, and his himself to the  
camp of the enemy—that is, unless  
the decision in the Killifer case holds  
baseball contracts to be binding.

Scott has emerged from the senti-  
mental stage of his baseball career.  
When he cooled down, however, he  
intends to look out for No. 1—  
meaning himself.

To make the position of these play-  
ers clear, the Killifer case should be  
reviewed briefly.

Killifer, who is on the reserve list  
of the Philadelphia Athletics, signed  
with the Federals, being momentarily  
dazzled by the clink of much coin.  
When he cooled down, however, he  
repented of his deed, returned the ad-  
vance money which he had received

from the Federals and signed a contract  
with the Phillies.

UP TO COURTS.

The Federals, being unable to in-  
duce him to reconsider this latter ad-  
dition, carried the case into the courts.  
The legality of baseball contracts is  
involved. Should Killifer be awarded  
to the Phillies, the Federal League  
will take it to mean that these con-  
tracts are not binding.

"It is true that Weaver and myself  
have received contracts from the Fed-  
erals," said Scott. "These name a  
much larger salary than we will re-  
ceive from the White Sox. Other  
things being equal, we will stay with  
the Chicago club. By this I mean  
the White Sox must meet the terms  
offered by the Federals.

However, we can take no definite  
action until the Killifer case is de-  
cided. The way things stand now we  
would go to the Federals immediately if  
we were sure of the legal status of  
our contracts. If Killifer is awarded  
to Philadelphia, it will mean that  
baseball contracts are not binding.  
In that event we will regard ourselves  
as free, and will go to the Federals,  
unless Chicago equals their bid.

PURELY BUSINESS.

"It is purely a matter of business  
with us. If we don't look out for  
ourselves, I don't know who is going  
to. The life of a baseball player is  
short, and it is up to him to get the  
money while the getting is good. We  
are not disloyal to the White Sox.  
All that we ask is that we be given  
the same money that we can com-  
mand elsewhere."

Scott and Weaver also are said to  
be dissatisfied with the division, or  
lack of division, to be made of the  
profits derived from the world's tour.  
This money, according to present  
plans, will go to Comiskey and Mc-  
Graw, who financed the tour, and

## WARDEN SAYS TROUT HAVE NOT BEEN SLAUGHTERED.

He Ought to Know.

LOUD wails of distress went forth  
from this end of the State some  
time ago to the effect that the  
trout were being slaughtered in the  
Big Bear Valley region. It was also  
reported that the trout were going up  
in the small streams to spawn and  
that the water was getting low in  
these streams, greatly endangering  
thousands of perfectly healthy trout.

Mr. Pritchard, the Federal Fish and  
Game Warden, immediately rushed to  
the rescue with several of his depu-  
ties. Upon arriving at the scene of  
disaster he found one dead fish and  
five that were stranded on sand bars.  
He reported that the trout were in  
the water higher than in years and  
that the trout in no danger of being  
stranded in the creeks. He left sev-  
eral men there to watch the stream  
until the season opens. The small  
streams that are dangerous have been  
screened up so the trout cannot go  
up them at all.

The trout are abundant in both Big  
and Little Bear Valleys, but the fish-  
ing will not be good until several  
weeks after the season opens, on ac-  
count of the high water. After a  
painful trip around by the desert  
route Pritchard and his party finally  
had to abandon their machines and  
proceed on snow shoes to Big Bear  
Valley. He also visited Little Bear  
and found both the roads and the trout  
conditions in good shape there. If it  
rains any more between now and the  
opening of the season trout fishing  
in the Bear valleys will be both null  
and void.

Up and Down Broadway.  
**WALLACE TO QUIT BURBANK.**  
 Adolph Phillip Finds Cost of Asparagus High.

Rival Dancing Teams Here Next Week.

Noted Stage Director to Go Into Movies.

BY GARDNER BRADFORD.  
 The one real important bit of news yesterday was the resignation of Morgan Wallace. I understand he has something else in mind, which he figures will be more lucrative in the long run.

Maybe it broke his heart to watch Adolph Phillip direct "Auction Pinocchio." I couldn't help but notice at rehearsals that Wallace secretly envied that delicious German roll which Phillip wraps around his R's. The only one who can approach it is "Gus" Dandy.

By the way, I have a good story to tell about "Pinocchio," though it is a bit difficult to tell in print.

Seems Adolph has a brother, also in the show game, and they are much more friendly than brothers are wont to be. So much so that when Ad came out here it was arranged that they should send each other night letters at the close of each day.

Seems Adolph sent a couple telling what a fine man Morosco was, till he got tired of repeating, and then shot over something about the difficulties of making a hit with the California girls. Later he dilated on the high cost of asparagus. Some of his messages were too fervid, even for the wire, but Adolph is persuasive and managed to get them over.

But night hours last came the limit. He handed the operator a message, which went something like this: "Morosco is a fine man. Out here asparagus comes high. How about midnight girl in New York."

And Phillip had to scurry around and dig up a New York paper and produce an ad therefrom before he could convince the Western Union man that "The Midnight Girl" was

one of his plays, now running in New York. Now Phillip is using the Postal.

Judging from the line I saw up at the Majestic, I take it that the extra performances of Evelyn Thaw were needed, for it has been a case of sell out all week. At that, part of the line is for Al Jolson, who opens Monday night and promises to do some business himself.

Dancing, I note, is to be quite a vaudeville feature next week, for there will be the Maxwell Dancing Girls at the Empress and the Seven Rosebuds at the Hippodrome. The teams are great rivals, and it will be interesting to see which makes the biggest hit.

Who should I run into on the street but Hugh Ford, one of the greatest stage directors in New York. He confesses that he is about to forego the left for the movies, even though his masterpiece, "The Garden of Allah," is gaining him added renown daily.

Ford has been given a handsome contract to take James K. Hackett to Europe, and there, on the spot where its scenes are laid, stage "Monsieur Boucaire," one of the greatest successes in which Richard Mansfield ever appeared.

Now, Ford never does things by halves, so, as he did not know much about the movie end of the game, he crossed the continent to see how it is done out here.

**ROSE BEATS DARLING.**  
 Rose moved along a peg in the Brunswick amateur handicap three-cushion billiard tournament last night by winning from Darling on the score of forty-five points to twenty-four. Both players made equal high runs of four, the game going 122 innings. Darling, rated at forty points in the handicap, is matched again for tonight against Fanning at forty-five.

## PRACTICE GAMES.

[BY A. P. NIGHT WIRE.]  
 LOUISVILLE (Ky.) March 26.—With Jimmy Lavender in excellent form today, the Chicago Nationals had no difficulty in defeating the Louisville team, 6 to 1. Lavender held the Colonels to three hits and would have credit with a shut out but for Zimmerman's error in the first inning. Score: Louisville..... 6 12 5 Chicago..... 1 3 2  
 Lavender and Archer; Northrop, R. Clemons, Leverett and Serverford.

ATLANTA (Ga.) March 26.—The New York American League team defeated the Atlanta team of the Southern Association, 12 to 2. Score: New York..... 12 9 1 Atlanta..... 3 4 2  
 Thompson, Warhop and Sweeney; Kinsinger, Price and Reynolds.

MACON (Ga.) March 26.—The St. Louis American League team defeated the local team of the South Atlantic League today, 13 to 2. Score: St. Louis..... 13 15 6 Macon..... 3 4 2  
 Mitchell and Jenkins; Voss and Kluth, Veach.

WASHINGTON, March 26.—The Washington Americans and the Philadelphia Nationals opened a three-game series today, the local winning, 6 to 1. Shaw and Bentley, recruits for Washington, and Jacobs and Alexander for Philadelphia, were the opposing pitchers.

## MINOR LEAGUES QUARREL OVER THE DRAFT RULE.

[BY A. P. NIGHT WIRE.]  
 NEW YORK, March 26.—A formal protest to the National Baseball Commission against its interpretation of the so-called promotion waiver clause of the national agreement, probably will be made within a few days by the Baseball Players' Fraternity, according to David L. Fultz, president of the fraternity. Fultz, in a statement tonight, said that if the National Commission ruling, announced last night, meant that a player drafted from a class A club is to be returned to that club before being submitted to class AA leagues in case of a release, the ruling is in direct violation of the "Cincinnati agreement." The promotion waiver rule gives a drafted player who is about to be released to a lower class the privilege of being engaged by the club of his choice.

## CALIFORNIA TEAM NAMED FOR BIG STANFORD GAME.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]  
 BERKELEY, March 26.—California and Stanford will meet in the twenty-second annual baseball series Saturday. Since the intercol-

legiate series has been contested, Stanford has won twenty-six games, California twenty-nine. Last season California lost the first two games to the Cardinals, who found little trouble in handling the Blue-and-Gold nine. Prospects for the 1914 series are summed up in a few words by Coach Schaeffer.

"We have hardly more than a fighting chance to win the game on Saturday. Only baseball luck, if there is such a thing, can win the game for us."

California's practice season has not been successful enough to cause fans to be optimistic. The team has a great aptitude for "blowing up" at crucial moments, and it is commonly felt that unless the early part of the contest opens well for California, there is no chance of holding together through the balance of the game. The line-up: Dodge, p; Sebastian, c; Dodson, 1b; O'Hara, 2b; Glanville, 3b; Young, ss; O'Hara, cf; Adair, cf; Ford, lf.

Weather Bad for Pitchers.  
 The weather man is no friend of the noble sport of baseball. Either that, or he is peevish because he was overlooked when it came to the annual distribution of season pastebords.

By inflicting a splash of cool, clammy weather on Southern California, he has set all the team back in their training, and left the pitchers with their arms tied in several varieties of knots.

Prior to this week the conditions had been ideal for training; never more so in the history of spring practicing in these parts, and it seemed as though both of the local clubs would face the barrier in August form.

Following the drop in the temperature, a census of the pitching staffs revealed an epidemic of stiff arms. There is no disguising the fact that the cool snap has set the clubs back.

"Pol" Perritt, who is booked to pitch the opener for the Angels, came up from Urbia yesterday with his arm in an acutely congealed condition. Up to four days ago Perritt never had been in better shape. His arm had given him less trouble than ever before, and he was facing the future with faith and confidence.

This was somewhat shattered when he faced the Sox in Riverside Wednesday, only to discover that his arm was "dead" and that he couldn't put enough on the ball to baffle a blind man.

This trouble, of course, is only temporary, and a few days of warm weather will put the pitchers of both clubs back in winning form.

Charles Chech, being a cold-weather bird, is not railing against the climate, and unless there is a boost in the temperature, he may draw the opening day assignment.

Angel Heavens Here.  
 President Berry yesterday had the pleasure of beaming on four of his very best pitchers while they disported themselves on the home heath.

Perritt, Chech, Ryan and Hughes, the advance guard of the Angel staff, worked out at Washington Park yesterday under the cultivated eye of Walter Boley, who is reported to be the forthcoming captain of the Los Angeles club.

These four heavies are being banked on to carry the Angels through the first series with Oakland. Boies, who has been giving the Los Angeles pitchers his personal attention for nearly a month past, believes that Love and Barton will prove effective when they get in shape.

"Barton has been showing a good assortment of stuff," said Boies, "while Love's speed is tremendous. Love stands 6 feet 7, which means that he delivers the ball from an altitude of nearly seven feet. Imagine speed being catapulted at a batter from that height. He also has a good, slow ball with which to diversify the program."

No comment is necessary of Chech, Ryan and Perritt. Hughes is bound to be a big winner in this league. He has been handicapped by a sore arm, but he is gradually working this out. Crabb also is showing good form."

All of these things were confirmed by "Boots" Weber.

The main body of the Los Angeles club will be railroaded up from San Bernardino tomorrow night. They will engage in a light workout at Washington Park Sunday morning, and put on the finishing touches in a final practice Monday afternoon.

After that, "P-l-a-y-b-a-w-l" to quote Messrs. Finney and Phyle.

The older generation of English cricket players can recall a visit of American baseball players to that country forty years ago. There were eleven of the Boston Athletic Club and eleven of the Philadelphia Athletics; then the two leading baseball clubs. Dr. W. G. Grace testifies to the brilliancy of their catching and fielding and throwing. They played seven cricket matches, winning four, drawing three and losing none.

**PITTSBURGH FEDERALS WIN.**

## Sox Must Meet Terms.

(Continued from First Page.)

who stood to stand any losses that might result. The players would like to get a finger or two in this financial pie.

James J. Callahan stated that he had not spoken to Scott and Weaver regarding their contemplated jump to the "outlaws," and declared that he would not concern himself with it.

"These men are under contract to us, and that settles it," said Callahan. "They are bound both legally and honorably to remain with the Chicago club."

Callahan dismissed the matter of the world's tour money with the statement that had the trip been a failure, Comiskey and McGraw would have been compelled to make up the deficit. That being the case, he feels that they are entitled to the profits.

Scott and Weaver were not familiar with baseball conditions here when they signed their contracts, said a close friend of one of the players. "They did not know that the Federal League was offering money that made a noise like sudden wealth. At the same time, Callahan and McGraw were kept in touch with the situation through cablegrams and when things became too warm, induced the players to sign. This took place when the teams were abroad. These contracts called for substantial increases, but did not equal the money which would have been made by the Federal League."

Meantime, Chicago is not letting go of Joe Berger. With Weaver buried in the Federal League, Joe would have clear sailing.

**Final Inspection of Pitchers.**  
 Hogan stated yesterday that he would as nearly as possible use the pitchers against the White Sox on whom he will depend for the opening series with San Francisco.

Decanniere and Klepper were his offerings yesterday. Hitt and Henley are his advance selection for today while White and Powell are booked for tomorrow. Harkness and Edmondson are slated for Sunday's game.

**Kane's Eyes on Blink.**  
 Johnny Kane was forced to view yesterday's game from the pit and the coaching line Johnny is growing a heavy crop of styes on each eye, and these seriously interfere with his batting and fielding sight. He will submit to having the ripost of these lanced today.

**Maier Is Host.**  
 Scores of perfectly good steaks were last night sacrificed at the shrine of good-fellowship, when Ed Maier gave one of his justly celebrated "feeds," with the Tigers and White Sox as guests.

**Weather Bad for Pitchers.**

The panel picture is Al Jolson, whom the audience seldom sees except in black face. Right now he is considered the best drawing card on Broadway.
